

KESİRLER

Birim Kesir

Bir bütünün eş parşalarından bir tanesini gösteren kesir o bütünün **birim kesridir**. Birim kesirlerin pay kısmı daima 1'dir.

$\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{5}$, $\frac{1}{8}$, $\frac{1}{10}$, $\frac{1}{25}$ kesirleri birim kesirdir.

$\frac{1}{2}$ $\frac{1}{10}$ $\frac{1}{4}$ $\frac{1}{3}$ $\frac{1}{9}$ $\frac{1}{10}$ $\frac{1}{8}$ $\frac{1}{5}$ $\frac{1}{6}$

Verilen kesirlerin birim kesirlerini örnekteki gibi yazalım.

$$\frac{4}{7} \rightarrow \frac{1}{7}$$

$$\frac{6}{8} \rightarrow \frac{\dots}{\dots}$$

$$\frac{3}{6} \rightarrow \frac{\dots}{\dots}$$

$$\frac{5}{9} \rightarrow \frac{\dots}{\dots}$$

$$\frac{2}{3} \rightarrow \frac{\dots}{\dots}$$

$$\frac{9}{10} \rightarrow \frac{\dots}{\dots}$$

$$\frac{1}{2} \rightarrow \frac{\dots}{\dots}$$

$$\frac{9}{11} \rightarrow \frac{\dots}{\dots}$$

$$\frac{13}{25} \rightarrow \frac{\dots}{\dots}$$

$$\frac{37}{45} \rightarrow \frac{\dots}{\dots}$$

Aşağıdaki şekillerde belirtilen kesirleri örnekteki gibi bulalım. Kesirlerin birim kesrini yazalım.

$$\frac{2}{5} \rightarrow \frac{1}{5}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$

$$\frac{\dots}{\dots} \rightarrow \frac{\dots}{\dots}$$
